Our Guest Says

FOREIGNERS BEST CHOICE

I have been with Ravi and his team for 8 tours. He is the most professional guide I have ever experienced. His English is perfect. His drivers are the best you could ever ask for. They think of everything you could possibly need. They are always on a perfect schedule. Ravi's mind is like an encyclopedia.. You cannot ask a question that he can't download a wealth of information. When 2 of us had back pain he found a hospital after midnight and bought hot water bottles for us to relieve the pain. After 6 trips with this man He is perfect in honesty and integrity. I would honestly trust Ravi with my life. Money cannot buy a tour guide better than this man. I will not work with any other tour agency. I have found the best.
